Objectives (100 words)	The primary aim of the session was to ignite the inner drive in students by encouraging them to believe in their potential, regardless of their starting point. The objectives included promoting a positive mindset, encouraging self-confidence, and guiding students to face academic and life challenges with courage and enthusiasm. The session also aimed to help students understand the importance of resilience, time management, and developing clarity in life goals.
Benefits in terms of learning/ skill/ knowledge obtained	The expert talk "From Zero to Engineer" greatly benefited students by instilling self-confidence and a positive mindset. Miss Riddhi Kapadiya's real-life journey inspired students to believe in their potential, regardless of their starting point. The session encouraged students to overcome fear, face challenges with courage, and focus on personal growth alongside academics. It emphasized the importance of resilience, goal setting, and positive thinking. Students learned that engineering is not just a degree but a path of transformation. The interactive session also allowed them to clarify doubts and gain practical life lessons, boosting their motivation and enthusiasm for the future.
