Objectives (100 words)	The SSIP Pitch Presentation aims to provide a platform for students to showcase their innovative ideas, projects, or startups under the Student Startup and Innovation Policy. It encourages creativity, problem-solving, and entrepreneurship among young innovators. The activity helps students articulate their concepts effectively, receive constructive feedback from experts, and explore opportunities for further development, funding, or incubation. It fosters a culture of innovation within the institute and motivates students to translate ideas into viable solutions with real-world impact, aligning with SSIP's vision to support and nurture student-led innovations across diverse domains.
Benefits in terms of learning/ skill/ knowledge obtained	Participants gain hands-on experience in idea pitching, enhancing their communication, presentation, and persuasion skills. They learn to structure and articulate innovative concepts clearly, supported by market research and problem-solution fit. Interaction with industry experts and mentors provides valuable insights, constructive feedback, and exposure to real-world expectations. Students develop critical thinking, teamwork,

and problem-solving abilities while understanding business model development and innovation processes. The activity also builds confidence, networking skills, and awareness of funding and incubation opportunities, empowering participants to transform ideas into impactful, market-ready solutions.
